ABSTRACT

This collection of statistical data on school library media programs is designed to assist local education agencies in examining their programs according to concepts contained in "Criteria for Modern School Media Programs" and other publications of the Division of Library Development and Services. These charts compiled from statistics obtained from Annual Library Media Center Reports provide comparative data about staff and collections, as well as information about expenditures and materials purchased with Elementary and Secondary Education Act, Title II and Title IV B funds. Introduction

This collection of statistical data on school library media programs is designed to assist local education agencies in examining their library media programs according to concepts contained in *Criteria for Modern School Media Programs* and other publications of the Division of Library Development and Services.

The charts in *Facts About Maryland's School Library Media Programs 1976-77*, are the result of the compilation of statistics from the school and system level Annual Library Media Center Reports, which are submitted by each LEA. They provide comparative data about staff and collections relating to the *Criteria* as well as information about expenditures and materials purchased with Elementary and Secondary Education Act, Title II funds (ending in Fiscal Year 1976), and Elementary and Secondary Education Act, Title IV B funds (beginning in Fiscal Year 1976).

It is hoped that this information will provide assistance as you assess, plan, and develop your library media programs.
